

## THE GLOBAL CONFEDERATION OF ENTREPRENEURSHIP INSTITUTES

(HOME OF ENTREPRENEURSHIP AND INNOVATION)

### CONTINUING ENTREPRENEURSHIP AND ENTERPRISE LEARNING AND DEVELOPMENT (CEELED) PROGRAMME

The Institute's Governing Council has decided that in order for members to continue to keep their membership, each member must maintain a minimum of 30 (thirty) credit points per year. The following programmes can be used to get these points:

1. Institute free courses/training/activities (online or in person) - each worth 5 credit points.
2. CEELED (Continued Entrepreneurship and Enterprise Learning and Development) - Each course is worth 10 credit points.
3. Conferences – Each one is worth ten credit (10) points.

As a result, at least two free courses/trainings, one CEELED, and one conference are required to earn the 30 credit points each year.

All of these programmes will be communicated to members in due time.

The timetable for the Continuing Entrepreneurship and Enterprise Learning and Development (CEELED) programme for 2022 can be seen below. This is an advanced level of the Mandatory Continuing Professional Entrepreneurship and Enterprise Education (MCP3E), which is designed to keep members and interested individuals up to date on the latest trends in entrepreneurship, innovation, and small business, as well as current business and economic issues. It also serves as a networking opportunity for Institute members.
